

Register

Employer
Form

Same as registration
form – pre-filled

On submit sends
an email to WRC
Admin

Login to the WRC

Register

Username

Password

Sign In

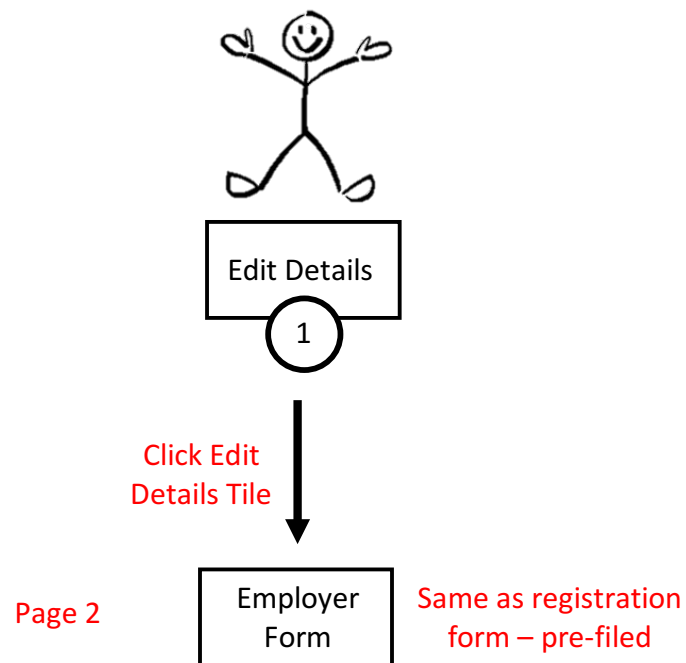

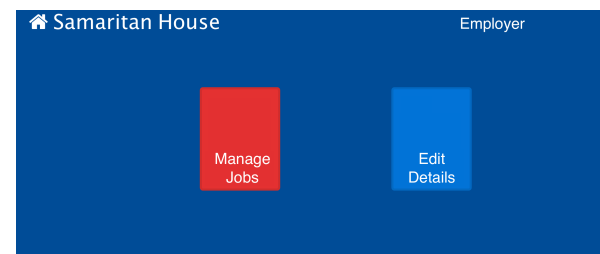

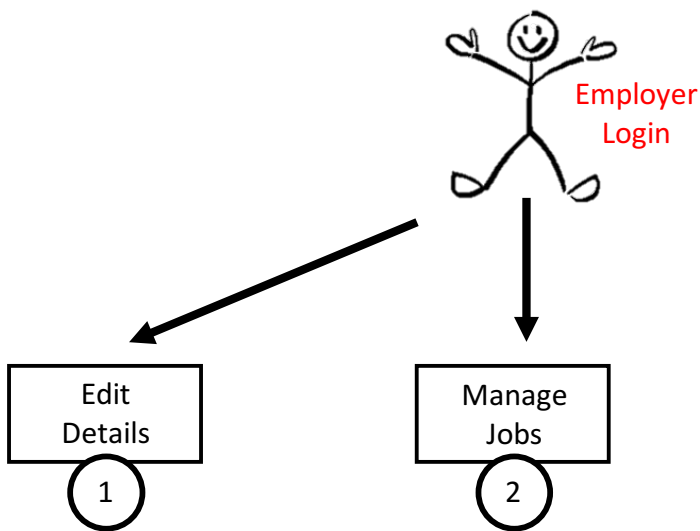

Notes:

Employers have to be 'authorized' before they can submit jobs.

On submit they are returned to login and message displayed, something along lines of:
"Employer registration submitted, WRC will review and you will receive an email once processed"

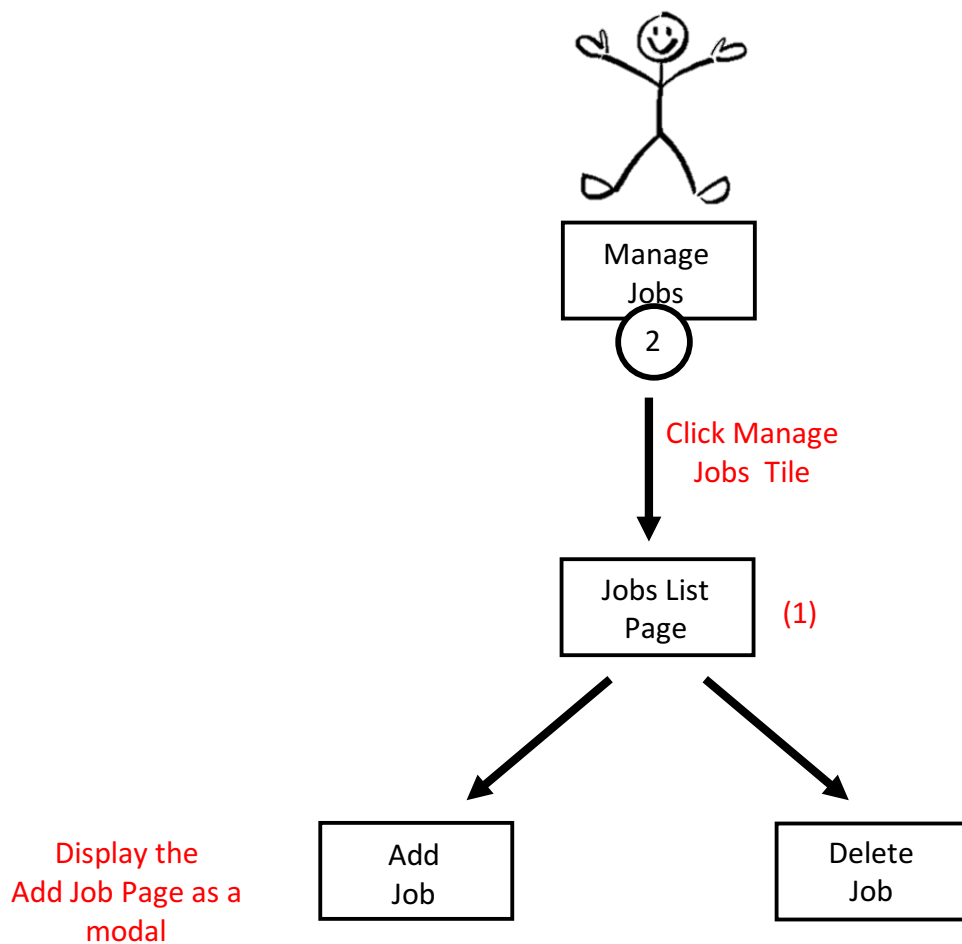

Page 1

2 Tiles on
Single Page

Notes:

Once authorized they login and see two tiles
1 to edit their details and one to manage jobs

Notes:

(1) Display a list of jobs, have a 'add job' button above the list of jobs
<Job Title> <Job Data> <Job Location> [Delete Link]

Add text under the page 'To Edit a job, delete it and add as a new job

(Edit job is complex – have to make as a different color in WRC Jobs list so that it can be re-confirmed (Workers may not be available at this time etc) – suggest this is a next phase 1
